About Vishweshwar Education Society

We at Malankara Orthodox Syrian Church (MOSC) trace our heritage back to the missionary efforts of the first century C.E. and share the nation's history for the last 20 centuries, to fully integrate the socio-cultural setting of India by contributing magnanimously to the fields of education and health care through an enormous number of reputed schools, medical and engineering institutes, all over India. The prestigious MOCCB, under the tutelage of Malankara Orthodox Syrian Church (MOSC), run VES Trust's Group of Institutes, and are pioneer in education in Mumbai well known for its chain of educational institutes established all over Maharashtra and Gujarat. Popularly known as the St. Mary's Group of Institutes in Mumbai, we have been well-versed with the expertise of rolling out education from KG to PG, to over 10,000 students who graduate, under our banner, every year.

About Galaxia i-Fest

Galaxia i-Fest is a prestigious Inter-collegiate cultural festival organised annually by the Vishweshwar Education Society's three institutes, viz, Western College of Commerce and Business Management (WCCBM), Indira Institute of Business Management (IIBM), and Dr. Mar Theophilus Institute of Management Studies (DMTIMS). True to its name, the festival showcases a galaxy of stars, including well-known celebrities who attract crowds and add excitement to the event. The performers are the highlight of the festival, as talented students compete for the coveted trophies.

Each year, the festival captivates students from across the city with dazzling performances and provides a platform for budding artists to exhibit their hidden potential and showcase their talents. What sets Galaxia i-Fest apart from other college festivals is its unique blend of versatile and unconventional elements, creating a truly one-of-a-kind experience. The excitement surrounding the event spreads far and wide even before it goes live on stage.

We are honoured to share that our fest was graced by the esteemed presence of celebrities like Ranvijay Singha, Amruta Khanvilkar, Shiv Thakare, Karan Kundra, Sundeep Sharma and many more whose participation added immense value and excitement to the event.

Galaxia i-Fest isn't just a festival; it is an experience that leaves an indelible mark on its audience and a flavour that leaves them relishing the moments and craving for more.

PRISMATICA

A prism refracts light into a stunning spectrum of colors, symbolising the limitless possibilities and diverse perspectives that bloom when unique ideas and talents unite. This year's theme, "Prismatica," was selected by the VES to embody the essence of unity in diversity—a principle at the heart of our institution.

"Prismatica" illustrates how every individual, like a beam of light passing through a prism, adds a unique hue to the kaleidoscope of human potential. It serves as a powerful metaphor for the richness that unfolds when different cultures, personalities, and talents converge, creating a vibrant blend of inspiration and artistry. Through this theme, the festival rises above mere entertainment, igniting a passion within participants to celebrate individuality while cherishing the collective beauty that unity creates.

Step into the spectrum, embrace the brilliance, and let "Prismatica" unite, refract, and inspire you to shine in extraordinary ways!

UNITE, REFRACT, SHINE!!
